## BIO :-

Born and brought up in Rajasthan, I always had the liking to preserve our culture and traditions intact. After completing my education from St. Mary's Convent, Ajmer, I continued my graduation at Sophia college, Ajmer which helped me a lot in my overall personality development. I have always been an active student enjoying studies, writing poetries and articles and an active member of college drama society.

Rajasthan, being my hometown, I always had a liking to explore this destination to the interiors and with time I became an enthusiast traveler. Initially I spent a decade serving travel and tourism industry and later spending a long stint, I decided to quit, to follow my passion of exploring something new and exciting every day. My no compromising attitude gave birth to Seventh Heaven Experiences, which translates each of my thoughts into an exciting travel experience. In addition, I love to write travel blogs and share my thoughts through the medium of my quotes and blogs.

Being a woman, I have always thought of encouraging and strengthening our counterparts and through the medium of Seventh Heaven Experiences our aim is to promote Sustainable and Responsible way of travel, which in result generates the employment within the regions to benefit the women and locals. Through our experiences sections we are promoting Rural and Art & craft tourism so that we can help the women of down trodden societies to earn wages and support their families. In addition, we are also engaging local house wives through the medium of cooking etc to set up their small set up at home and support their families through their talent.

I am happy to share that my dream – Seventh Heaven Experiences was nominated amongst the Best start ups in India within a span of two years and we have been given the certification of experiential travel by Startup India, a Govt. of India initiative.
