

PRESIDENT : START UP COUNCIL : LAVEENA LAITONJAM

Founder of out of the box business Rent An Attire , Ms . Laveena Laitonjam is an HR professional turned Entrepreneur.

Laveena has over 18 years of progressive experience in managing and leading various aspects of Human Resources and operations spanning across high paced business domains of IT. Having led multiple teams in Talent Acquisition and Learning & development during her corporate career, She switched gears to run her own venture “Rent An Attire” which is disrupting the current market. Through her unique concept she is also spreading awareness about #sustainableliving.

She started her professional career as an HR Executive & was associated with renowned IT companies such as Zensar Technologies and Persistent Systems.

She founded Rent an Attire in 2015, which has been recognised as an **“Innovative Fashion Rental Start up”** and **“Top Ten Best Online Rental Startup in 2019 by Silicon India Startup City”**.

Laveena believes in driving organizational culture and values through PEOPLE by developing them into future leaders and not processes alone

Laveena is an avid traveler and animal lover. She is also very active in supporting animal shelters.

COUNCIL MEMBER: START UP COUNCIL –DEEKSHA AHUJA

Deeksha comes with 8 years of experience across Ed-tech, Food-tech, Beauty-tech, Media-tech and Healthcare tech.

She has always been driven, energetic & passionate about creating value through the work she does at any stage of her life; and that's what inspires her to do all that she does.

Deeksha believes that each one of us has been destined to achieve something truly unique; her mission is to drive diversity through entrepreneurship. Ever since her college days, she had been fascinated by startups and the impact that they can create for the better.

An entrepreneur at heart, Deeksha translated that love for entrepreneurship into a venture that she Co-founded 7 years back.

Deeksha co-founded a venture called Cedarwood in the edtech space back in 2013,, which is a platform that enables parents to discover courses inspired by 21st century skills for their children.

Today, Cedarwood boasts of delivering 500,000+ hours of skilling courses to 5000+ students and is one of players that went digital with all of its course offerings as soon as the pandemic hit .

A Startup Consultant & Ecosystem Enabler

Being an entrepreneur gives Deeksha a wide and objective perspective on almost every business process; and she leverages that experience to foster entrepreneurship through her second venture Collaborat-her (www.collaborat-her.com) - a boutique consulting firm that aims at creating, nurturing and kickstarting some of the most innovative initiatives to foster the startup ecosystem. The same is done by creating unique IPs for a diverse set of entrepreneurs; all focused on helping their ventures achieve scale and sustainability.

It is her endeavor to make entrepreneurship gender agnostic and that's the vision - where age, caste, background or gender becomes irrelevant; and all we focus on is creating scalable, sustainable businesses that drive impact.

Sonali is keen in research in law and has presented her papers at various international conferences in Singapore and China. She is also a pro bono advocate with an NGO in Pune working in street child development.

COUNCIL MEMBER: START UP COUNCIL : MINAL ONDHIYA

Dr. Minal Ondhiya is a founder of Maniprabha Health plus. She did her MBBS from Dr. VMMC, Solapur In 2005 and pursued Masters in Public Health from SRM university , Chennai in 2011. She worked as District Programme Officer for National Programme for Prevention and Control of Diabetes, Cardiovascular diseases and Stroke (NPDCS) in Washim, Maharashtra.

It was during this time that she realized not only that chronic diseases are increasing at a rapid pace in India but no matter how good the doctors are, no matter if you get best nutritional experts – the patient keeps on suffering. It made me ponder that why when a pre-diabetic patient or just overweight patient seeks help from a doctor in regards to losing fat – he gets an answer which he himself knows –

“Reduce your calories and exercise”

Precisely these two things don't work. And for whatever the reasons they don't work – the blame is on the patient!!!

She helps people achieve the health they seek. Be it to lose fat, reverse their chronic illnesses like - diabetes , hypertension, hypothyroidism, psoriasis, migraine, arthritis etc . She has patients from 6 years old to 90 years old and hence She knows- it is possible for everyone to achieve health

She is one of those doctors who works towards wellness not just curing illness

COUNCIL MEMBER: START UP COUNCIL : RITU J GOYAL HARISH

Ritu is MD & Founder of Ease India Travel.

A former journalist, mother of two and a passionate traveller who believes in immersive, local experiences, Ritu has built her labour of love - Ease India Travel - with 'sweat, toil and a lot of tan', since 2017.

From the outset, Ritu had three clear goals in her mind:

a)She wanted to offer her guests the kind of experiences she herself seeks - which is why Ease India Travel offers customised and personalised holidays to very select destinations (places she has herself explored extensively)

b)She wanted her venture to be inclusive and diverse - she offers exclusive holidays for senior citizens, members of the LGBTQ community and travellers with weight issues, so these holiday seekers can enjoy their trips at their own pace, comfortable, safe and happy

c)She wanted to always "delight" her guest on their trips and made sure that celebratory surprises for special occasions and even food preferences were looked after, to give them a memorable experience

She went about achieving these goals with gusto and in three years, she was able to set some new benchmarks in the travel industry.

COUNCIL MEMBER: START UP COUNCIL : DEEPTI N ACHARYA

Deepti Acharya is founder of Rose Couture , She loves fashion, she loves kids and she loves making a difference.

Fashion designer by profession and the Creative soul behind the Brand Name "ROSE COUTURE". Team Rose couture believes "Number of products we create is equal to number of smiles we create on the faces of our little shoppers!"

With her extensive experience into kids wear designing of past 12 years, Deepti aims to create employment to young college graduates through her venture.

Apart from her work background she is a Guinness book world record holder, for being a part of longest human chain under water, in 2016 December at koh toh, Thailand.

"I aim to provide employment to students graduate from vocational/technical institutes, & its soul satisfying to see these young ladies making mark in their lives, contributing to their families finically, helping young siblings in educational support or buying vehicle on their own or supporting parents to pay home loans etc.

I also to aim to employ young females with "special needs". (Physically challenged) with minor Down syndrome or disability like hearing impaired etc. and want to come in mainstream as I believe Beyond Disabilities there are Infinite Possibilities," says Deepti N Acharya ,founder and creative head, Spectrum Clothing which creates clothing line for little girls age between 1 yr. to 8 yrs. under the brand name Rose couture.

Deepti teaches her team to be career driven than job seeker. Building a sense of belonging and taking ownership attitude. Making them believe in outcome than output.
